FIELD HANDBOOK · COLLECTIBLE LOOT

Special Artifacts

A catalogue of valuable finds in Star Citizen — the Pristine/Flawed/Damaged collectibles you loot and sell (not crafting material). Grows over time.

00 Basics: what are "special artifacts"?

Condition tiers · value · selling

A family of **lootable valuables** — precious-metal bars, medals, markers, relics. They are **not crafting material** and not required Wikelo ingredients (they appear in no blueprint recipe); you **find** them and **sell** them.

Condition tiers

Almost all come in three grades. The value jump to the top tier is huge:

Damaged | Flawed / Worn | Pristine

(The middle tier is called **Flawed** on some items [e.g. ingots] or **Worn** on others [e.g. medals].)

> TIPP **Pristine** is where the money is. Damaged/Flawed are often dirt cheap (some even NPC-buyable) — good for collection/decor, not profit.

Where do you find them?

As container loot at **derelict settlements**, **derelict outposts**, in **caves** and **wreck interiors** — often inside lockable crates/safes. Spawns are RNG, not guaranteed.

Selling

Two routes: **NPC terminal** (instant, but capped — often 9,999,999 aUEC/unit) or the **player marketplace** (UEX, usually more, but more effort). Prices are market- and patch-dependent — check live.

> NPC TERMINAL **What:** an in-game shop kiosk where you trade **with the game** (not player-to-player). **Where for valuables:** mainly **Dumper's Depot** (scrap/artifact buyer; Area18 retail, Grim HEX), plus city shops (Lorville/Area18/New Babbage/Orison) & Checkmate (Pyro). **How:** press **F** → **Sell** tab → the item must be in your **local inventory at that**

location → select, quantity, confirm. (Bulk: commodity terminal/TDD → pick ship → slider.) **Note:** Damaged/Flawed sell cheap to NPCs; **Pristine** is usually marketplace/Wikelo only.

Overview of all entries

#	Entry	Nature / Acquisition
01	UNE Ingots	Sell-loot (NPC cap + marketplace)
02	Medals & markers	Loot → Wikelo turn-in / marketplace
03	Artifact Fragments	Loot (contract/Wikelo/marketplace)
04	Event trophies	Event decor, partly lootable
05	200th Anniversary Coin	Backer milestone (not obtainable)
06	Puglisi Collection	Subscriber flair (decor)
07	Headhunter Head Lamp	Event-goodies decor

01 UNE Gold & Silver Ingots

UNE precious-metal bars · "currency bar" · loot & sell

Type	Metals	Grades	Crafting?
Valuable (Misc)	Gold / Silver	Damaged · Flawed · Pristine	No

Lore: Gold and silver bars cast by the **UNE (United Nations of Earth)**. Once official tender in UNE regions where technical issues hampered secure/instant money transfers. They carry the UNE logo (three rings, six stars) in a circular recess with an ornate textured pattern.

Value & selling

Item	Grade	Where / Ballpark
UNE Gold Ingot	Pristine	Loot-only · NPC sell Lorville up to ~9,999,999 aUEC; marketplace often more

ITEM	GRADE	WHERE / BALLPARK
UNE Silver Ingot	Pristine	Loot-only · high value, below gold
UNE Gold Ingot	Flawed	buyable: Checkmate (Pyro, PYR2-L4) ~3,760 aUEC
UNE Silver Ingot	Flawed	buyable: Checkmate (Pyro) ~1,750 aUEC
UNE Gold Ingot	Damaged	buyable: Dumper's Depot (Area18, Grim HEX) ~1,550 aUEC
UNE Silver Ingot	Damaged	buyable: Checkmate (Pyro) ~1,469 aUEC

ACHTUNG Only **Pristine** is truly valuable and **loot-only**. Damaged/Flawed are cheap (some NPC stock) — don't confuse them. All prices swing hard (market + patch); **check live** before selling.

Where to find (Pristine = container loot)

Pristine bars spawn in lootable crates/safes at remote sites. Good hunting grounds:

- **Derelict settlements – Hurston:** Zir Makers Point, Illo Pickers Field, Foley Weeping Cove, Cutters Rig, Rapple
- **Derelict settlements – microTech:** Frostbite Razor's, AG Bloodshot Ridge, Harper Point, Asor Clearing, Morlon Hills, Don Boro
- **Also:** derelict outposts, marked caves (StarMap / "B" in orbit), wreck interiors, crashed ships — search the lockable containers in each.

Containers & farm mechanics

Ingots sit inside **"blue loot boxes"** / **systemically generated containers** (crates/lockers/safes) whose contents are rolled randomly per location. Dense spots:

- **Caterpillar derelicts** & **inhabited caves** — many containers in a small space (efficient to sweep).
- **Outposts & bunkers**, **Inspiration Park**, plus the derelict settlements above — prioritise safes/locked rooms.
- **Wreck of the Reclaimer** (microTech) — a known exploration wreck with high-tier loot.

Pristine is rare (RNG) — expect many containers per hit. Route: pick a container-dense site, clear it systematically; server resets refresh spawns.

> **TIPP** Ingots are tiny (µSCU) — they fit in your backpack/personal inventory, no ship hold needed. Bring a multi-tool with tractor beam and a way to crack containers. In Pyro/Contested Zones (Checkmate) expect PvP.

02 Medals & Markers

Historic awards · Wikelo turn-in OR sell

TYPE	COUNT	GRADES	WIKELO
Valuable (Misc)	4 awards	Damaged · Worn · Pristine	Yes (Pristine)

Four historic military/service awards. Key difference from ingots: **not sellable at NPC terminals** — only the **player marketplace** OR **Wikelo turn-in** (the Pristine pieces are ingredients in the Wikelo planner).

AWARD	LORE	PRISTINE VALUE (MARKETPLACE)
Government Cartography Agency Medal	UPE award for discovering/exploring/scanning new systems	very high, volatile (~1–16M+, outliers higher)
Tevarin War Service Marker	UPE service marker for military in the First Tevarin War	~1–30 Mio.
UEE 6th Platoon Medal	military medal (6th Platoon)	high
UNE Unification War Medal	medal from the Unification War	high

> **ACHTUNG** Prices are purely player-driven and swing wildly (Damaged sometimes ~60k, Pristine millions). **No** NPC sale. Before parting with one, weigh **Wikelo turn-in** (reward/rep) vs. **marketplace sale** (aUEC).

Where to find

- **Ace Pilots (best route for Pristine):** Pristine medals drop from Ace Pilots in patrol/orange contracts. The **"Stand Our Ground"** mission guarantees an Ace Pilot spawn → most reliable farm (Cartography Medal + Ace Interceptor Helmet). Foxwell patrol ~25% for the 6th Platoon Medal.
- **Derelicts:** Hurston/microTech derelict "blue hangars / red rooms" + random loot.
- **Hathor PAF Sites:** satellite building drops Pristine UEE 6th Platoon Medal + Grade-C shields/coolers (see Hathor guide).

03 Artifact Fragments

Hadasian alien fragments · contract/Wikelo loot

TYPE	SIZES	GRADES	USE
Souvenir/flair (SI)	Small · Medium · Large	Damaged · Flawed · Pristine	Contract / Wikelo

Lore: Hadasian artifact fragments of unidentified material and unknown origin — with intricate etchings that faintly **glow green** and gold-coloured metallic banding. A true "alien artifact".

Sizes, volume & value

SIZE	VOLUME (PRISTINE)	VALUE / NOTE
Large	2.300 µSCU (0,0023 SCU)	Pristine ~1.9M (avg ~1.6M), outliers to 100M
Medium	163 µSCU	Pristine high, below Large
Small	74 µSCU	Pristine lower; Damaged NPC-sellable (Dumper's Depot Area18/Grim HEX ~960 aUEC)

> **ACHTUNG** Pristine is **not** NPC-sellable → player marketplace or (contract/Wikelo) use. Only **Damaged** has an NPC buyer (pennies). Values swing hard — check live.

Where to find

- **QV Station (Nyx):** Large (Pristine) in the **Warehouse** section — same corner as the QV Breaker guide.
- **Vanduul tech smugglers:** as contract loot (see the Vanduul-Tech guide).
- **Abandoned outposts – Hurston:** Large/Medium Hadasian fragments in container loot.

04 Event Trophies (CitizenCon / Gamescom)

Hangar decor · event/subscriber/pledge · partly rare loot

TYPE	USE	SOURCE	AUEC SALE
Souvenir/Flair	Hangar/Hab Decor	Event · Sub · Pledge · (Loot)	No

Unlike entries 01–03: trophies are **decoration** (placeable in your hangar/hab only), **not sell-loot** for aUEC. They are collectibles from real CIG events. Look e.g. CitizenCon 2951: gold/silver casing with green marble, year + CitizenCon logo etched.

How to get them

ROUTE	DETAILS
Event / Digital Goodies Pack	During the event on the pledge store (time-limited); partly an attendee reward.
Subscriber trophy	Coloured variant, auto-granted to **active subscribers** at the event; later buyable & giftable in the Subscriber Store.
In-game loot (since 3.17)	Many **older** flair items (esp. pre-2023) are rare loot drops; **new** flair only after a **3-month exclusivity window**.

> **TIPP** To "find" them: older trophies appear in the same container loot as other souvenirs (see entry 00/03). Current-year ones realistically only via event/subscription.

Known trophies (selection)

- **CitizenCon:** 2945, 2946, 2947, 2948, 2949, 2951, 2953 (+ special-edition/subscriber variants)
- **Gamescom:** 2943, 2944, 2945, 2946 (+ special edition)
- **Other event trophies:** RSI Cup, PAX, Zeus, Golden Ticket

> **ACHTUNG** Grey-market shops (star-hangar, eBay) trade trophies for **real money** — not in-game aUEC and outside official channels (ToS risk). Official & safe: Subscriber Store purchase + gifting.

05 One Empire 200th Anniversary Coin

Backer milestone reward · "200m challenge coin"

Type	Use	Source	In-game obtainable
Flair (backer reward)	Hangar decor (S1–2 surface)	$200M milestone	No

The most exclusive piece in the catalogue. A **backer reward**: a gift to **everyone who had pledged before the $200,000,000 crowdfunding milestone** — a one-off thank-you. Pure hangar decoration.

Lore: Commemorates "**One Empire**", a community-based government initiative that has brought the UEE's people together for 200 years. (Real-world: marks SC reaching $200M crowdfunding.)

> **ACHTUNG** **Not** buyable, lootable, craftable or pledgeable — and **no** in-game value (UEX lists 0 aUEC). If you missed the milestone window, there is **no** regular way to get it. The only retroactive

"route" would be grey-market account sales (real money, ToS risk — not recommended).

07 Headhunter Head Lamp

CitizenCon 2953 decor · Headhunter gang relic

TYPE	USE	SOURCE	IN GAME
Souvenir/Flair	Hangar/Hab Decor	CitizenCon 2953 Goodies Pack	since 3.24.3

Companion pack contents include: CitizenCon 2953 Trophy (cf. entry 04), Deadrig Shotgun, J-5 Helmet/Markanda Undersuit (Pyrotechnic), Zeus Coin & Plushie.

> **TIPP** Pure decoration (no aUEC loot). Like other older event flair it can appear in container loot after the exclusivity window (cf. entry 04); it can no longer be bought normally.
