VANDUUL-TECH SMUGGLERS

Field handbook for the InterSec investigation into Vanduul-parts smugglers in Nyx — the besieged Old QV station, 7 parts, a fat payout. A sequel to the Onyx/Jorrit case.

What this is: A long, combat-heavy **investigation mission** (once only). **InterSec Defense Solutions** hunts black-market dealers moving **Vanduul parts** — the trail leads to the old **QV Planet Services Logistics station** in Nyx, currently **under Vanduul siege**. Across 7 parts you fight, hack and loot your way through.

> CASE CONNECTION
>
> A direct **sequel to the Onyx/Jorrit case**: the smuggled Vanduul parts come from the illegal experiments at ASD's Onyx facility. If you know the Onyx guide, you know the motive.

Getting in — how to unlock it

Mission-driven, with a reputation gate.

> THE "START BUTTON"

> Build **InterSec Defense Solutions reputation** until you're a **Junior Contractor** — then **Vanduul-Tech Smugglers** appears in **mobiGlas → Investigation tab**. It's a **once-only** mission (one per character) and it's long (~3 h) — budget the time. **4.8 wipe:** reputation was reset; you may need to re-grind the rank before it reappears.

▶ The run — 7 parts

Order is approximate; the mission itself segments into 7 steps.

1 APPROACH — Approach the besieged station

`OBJECTIVE: SECURE THE AIRSPACE`

1. Jump to **Nyx**, follow the marker to the **Old QV Planet Services** station.
2. Clear **4 Vanduul fighters** before landing. A combat ship is required.

2 FPS — Infiltrate the station

`OBJECTIVE: FIGHT THROUGH`

1. Dock and enter. Across the mission there are **~47–49 hostiles** total — advance carefully, use cover.

3 HACK — Hack laptops (door codes)

`OBJECTIVE: UNLOCK ACCESS`

1. **Laptops** spawn in **random locations** — they hold the **door codes**. Search rooms thoroughly.

4 REPAIR — Repair pipes

`OBJECTIVE: CLEAR THE PATH`

1. Some passages are blocked — **repair pipes** to proceed (multitool).

5 LOOT — Loot Vanduul corpses

`OBJECTIVE: SECURE TRADE ITEMS`

1. **8 lootable Vanduul corpses** carry **new trade items**. Grab them all (large backpack!).

6 WRECKS — Hit the three derelicts

`OBJECTIVE: SEARCH THE AUX STATIONS`

1. The loop spans the **station, a Polaris, three derelicts and an auxiliary station** — at **each wreck** another wave of **4 Vanduul fighters** awaits. Watch your shields/HP.

7 Testudo boxes & return

FINISH

OBJECTIVE: COMPLETE THE CONTRACT

1. On the bridge, collect the **6 testudo lootboxes** (2 of them on the **lower deck**).
2. Return to the station to **complete the contract** and claim the reward.

  ~47–49 hostiles. Bring plenty of ammo & a spare.

Common pitfalls

Reputation too low

Without Junior Contractor rank at InterSec the mission won't appear.

No combat ship

4 fighters at the station + 4 per wreck — a hauler alone won't cut it.

Too little inventory

8 corpses + 6 boxes + goods — without a large backpack you leave value behind.

Underestimated the time

Once-only & ~3 h. Don't start it on a whim.

Missed the laptops

Door codes spawn randomly — without them you're stuck.

Lost the loot

Carried goods vanish on death. Bank to the ship in between.
